RENÉ KALONJI

Vice President & Chief of Staff, Business Technology Optimization, J.P. Morgan

René Kalonji is currently Vice President & Chief of Staff within the Business Technology Optimization group at JP Morgan Asset & Wealth Management. Prior joining JP Morgan & Chase, he held the position of Vice President of Foreign Exchange within TD Bank Group driving the enterprise distribution effort in New York and led the business development effort of TD Securities Treasury Services in Toronto. He has more than 15-years of international experience across all aspects of financial industry: wholesale banking, wealth management, commercial and retail banking. Given his international background René has always been passionate about activities that facilitate and support international students' integration. Throughout his career he co-led several international student initiatives sponsored by business groups he worked for. René hold a Master's degree in business administration from University Canada West and he's a Certified Treasury Professional.
